DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on 5/07/03 has been considered by the examiner. Also, references listed on the IDS submitted 12/03/01, which were indicated as not being considered by the examiner due to lack of a copy being provided, have been considered. The references include JP 5-35220, 5-273520, 5-94159, 7-191635, and 4-86787.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. **Claim 1** is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claim recites that the reference voltage wire unit is configured to supply at least one of the plurality of reference voltages to *each* of the source driver circuit devices, however the specification and drawing describe that only one of the source driver circuits are supplied with the reference voltages from the reference voltage wire unit, wherein in-chip reference voltage wires extending to the other end of the source driver for supplying a the reference voltages to the additional source drivers. Therefore the claimed subject matter is indefinite for failing to particularly point out and distinctly claim the subject matter.
